

Yes! We have snakes in the desert and around the North Mountain Visitor Center!

- ◆ **Be Alert**
- ◆ **Look but don't touch!**
- ◆ **Do not panic!**
- ◆ **Keep a safe distance!**
- ◆ **Do not attempt to move**
- ◆ **Do not climb on top of tables**
- ◆ **Tell the volunteers**

These three snakes were seen by the back patio picnic tables. Please be aware!

Remember! Snakes are a natural part of our desert environment. They look for cool areas just like we do. They like shady spots just like we do. Snakes do not want to challenge humans or bite humans unless they are provoked. Please do not harass, poke, move or grab at snakes! Thank you!

STOP!
LOOK!
BE AWARE!
DON'T TOUCH!

Join us at NMVC as we learn about snakes and other reptile critters from the Rattlesnake Garage experts. See our calendar for dates.
